MANAGEMENT & OPERATIONS

Like a well oiled crew on a tightly run ship, the PIYC staff navigates both routine and uncharted adventures with enthusiasm. We collectively strive for excellence and deliberately set our course each year.

"If you want to build a ship, don't drum up people to collect wood and don't assign them tasks and work, but rather teach them to long for the endless immensity of the sea".

- Antoine de Saint-Exupery

THE OVERALL EXPERIENCE

Our Members say it best...

"What makes PIYC so special is the Staff and Members. Everyone is so warm and welcoming. When we first joined the Club 22 years ago, the Club Ambassadors personally took us around and introduced us to many of the Members. It has to be the friendliest Club I have ever been a Member of. You talk to people there whether you know them or not. The Staff go out of their way to joke around with you, give you what you want and just make you feel special by memorizing what you drink, eat, etc. The Club is more like extended family than a Club. It just has such a special atmosphere. We have made so many wonderful friends and hope to enjoy it for many more years. The Chef goes out of his way to have something on the menu for everyone. The food not only tastes great, but is also beautifully presented.

Just a great place to call my second home." – **David & Paula**
