*Celebrating 20 years & building for the future!*

### **Pelican Isle Yacht Club Undergoes \$4.8 Million Dollar "20/20 Renewal Project" Clubhouse Renovation**

May 2017 - Pelican Isle Yacht Club is currently undergoing a \$4.8 million dollar renovation, projected to reopen in November 2017, enhancing and updating the facilities for the Members of this already-beautiful yacht club. The newly redesigned 20,000 square foot clubhouse will feature a contemporary design throughout with an upgraded dining room, expanded indoor & outdoor casual dining areas, a state-of-the-art-kitchen, enhanced water views from the clubhouse, new meeting & banquet spaces, and new outdoor dining and activity features including 2 bocce courts and fire pits. This full clubhouse renovation follows the complete upgrade of PIYC's second floor Fitness Center and Spa Service areas that took place in 2016, including a floor-to-ceiling transformation and the installation of top-of-the-line TechnoGym cardio and strength equipment.

The clubhouse officially closed March 31st, 2017 after over a year of preparation and planning with Gates Construction, McWard Architects and Wegman Design Group as partners on the 20/20 Renewal Project. Last year, Pelican Isle Yacht Club celebrated their 20th anniversary. The focus and heart of the renovation encompasses the history of the club over its past 20 years and lays the foundation for the club to grow in future years for the next generation of Members to enjoy.

During the entire clubhouse closure for the renovation, Pelican Isle Yacht Club's marina will remain open and operational. The Club does currently have boat slips available for lease and transfer, and applications for membership are still being accepted while the clubhouse is closed.
